

Andreas HORNICH, MSc

Data Management Expert

Having worked in the field of data management and analytics for more than 12 years, I have been able to implement many successful initiatives as developer, architect and project manager.

My work is always characterized by commitment, motivation, diligence, perseverance.

In me, you will find a competent co-worker and team leader, always eager to bring about improvements on a large and small scale.

I would like to contribute to your company with my broad experience from different industries as well as my professional expertise.
